

## **WE HELP VETERANS BECOME PROJECT MANAGERS**

That's because as highly-decorated, multi-era Military Veterans and successful, credentialed Project Managers ourselves, we know that many Military Veterans have enough significant project management experience, talent, and interpersonal skills to secure meaningful, lucrative, and familiar post-service careers as Project Managers.

### **UP-FRONT VALUE**

We know that translating your skills into PMI-accepted narratives can be daunting. Our no-strings-attached application tool seamlessly solves this issue. We call it the Application Translator, visit [www.vets2pm.com](http://www.vets2pm.com) to check it out!

## WHY HIRE A VETS2PM VETERAN?

Our Talent Bench contains educated, credentialed leaders, with proven experience. Many are Project Management Professionals (PMP®) or Certified Associate in Project Management (CAPM®), steeped in civilian project management's good practices, and generally recognized knowledge, ready to bring real-world success to your organization on day 1!

Our candidates are decidedly unique from the typical Veteran candidate you are acquainted to; they have successfully managed extremely challenging projects for many years in austere, resource-constrained environments, with the most demanding stakeholders and objectives... failure is not an option to this group.

They employ best, good, and emerging practices consistently and make tough decisions in a timely and accurate manner.

They also artfully build, coach, and lead high-performance teams and stakeholders. They see political, technical, and cultural challenges as opportunities to develop organizational diversity, capabilities, and success.

Finally, many of them still possess active security clearances you can leverage immediately with significant cost and time savings.
